TRIM SPECIALTY & MOLDINGS

INTERIOR/EXTERIOR USE | LEARN ABOUT THE 30 warranty and our protected process

Fall 2021

### CRAFTSMANSHIP PAYS.

The first thing you notice on a home is the detail work. Builders use WindsorONE Trim Boards ජ Moldings on their projects because craftsmanship pays. It gets your work noticed and generates referrals.

QUESTIONS? ASK THE BOYS:

888.229.7900

### ALL Windsorone boards are straight tight & true

Boards are made of real wood, finger jointed and coated with three coats of acrylic latex primer. WindsorONE Traditional Boards can be used for both interior and exterior use. The back of all WindsorONE Traditional boards contain an ink stamp ("WindsorONE Traditional") to be easily identified.

WindsorONE Traditional 114 5 MANUFACTURED IN THE USA

### **30 YEAR WARRANTY\* PROTECTS AGAINST ROT, INSECTS AND MOLD**

Boards are made of real wood, finger jointed and coated with three coats of acrylic latex primer. All boards are protected with a 30 year warranty against rot, insects & mold. WindsorONE Protected Boards can be used for both interior and exterior use. The back of all WindsorONE Protected boards contain an ink stamp ("WindsorONE Protected") to be easily identified.

WindsorDNE+Protected ### MANUFACTURED IN THE USA

### MANUFACTURED IN THE U.S.A.

Windsor Mill is a family owned & operated company

### WHAT DOES **2524** MEAN FOR YOU?

### 200,000:

200,000 American jobs are lost to outsourcing each year.

### 5%

If builders bought an additional 5% more building materials manufactured in the U.S...

### $2^{220,000}$ :

220,000 more jobs would be created here in the U.S.

### 45¢

When you buy locally 45¢ of your dollar gets returned to your local community, vs. 15¢ otherwise.

"Take away my people, but leave my factories and soon grass will grow on the factory floors... Take away my factories, but leave my people and soon we will have a new and better factory."

-ANDREW CARNEGIE

INDOOR ADVANTAGE GOLD BUILDING MATERIALS

## HEALTHY

### NO HARMFUL ODORS

## SUSTAINABLE

### NO WASTE

PROTECTED BOARDS HAVE A SAFE, ECOLOGICALLY SOUND WATER-BOURNE PROCESS

A PROPRIETARY PROTECTION PROCESS

Unlike other treatments, ours protects to the core. Providing you the most stable boards on the market. A protection process that is

DURABLE FOR THE EXTERIOR & SAFE FOR THE INTERIOR

Protects to the core! *(including heartwood)* 

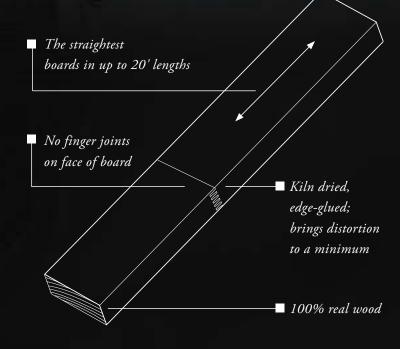

### SUPERIOR

Straightness Precision Finger Joints Prime Coat

### CRAFTSMANSHIP PAYS

Have you ever picked up a 16ft or 20ft board and stared down it? Often you'll notice twisting and cupping on a longer board. Not the case with WindsorONE Trim Boards; superior finger jointing and edge gluing ensure you get one of the most straight, tight and true trim boards on the market.

INSTALL 2" ABOVE PORCHES, ROOFS, ETC:

2" breaks are crucial on the porches, roofs and all flat surfaces (patios, decks, etc).

INSTALL 6" ABOVE

Trim should be installed at

least 6" from ground.

GRADE:

6

### INSTALL 1/4" ABOVE 1/4 INSTALL 1/4 FLASHING:

Flashing is imperative, but maintain a 1/4" gap for a capillary break.

Educating the builders of today and tomorrow on proper building practices is imperative. This is why WindsorONE works with a variety of building specialists to help teach and reinforce proper building practices. To view content visit WindsorONE.com/install.

#### CLASSICAL COLONIAL

GREEK REVIVAL

Classical Colonial

Greek Revival

Floor to Ceiling Styles

## CLASSIC AMERICAN MOLDING COLLECTION

#### CLASSICAL CRAFTSMAN

Classical Craftsman

Brent Hull, a graduate of the prestigious North Bennett Street School and historic millwork expert, designed the WindsorONE Molding Collection. Comprised of four historically inspired Styles: Classical Colonial, Greek Revival, Classical Craftsman and Colonial Revival. Each includes all the components to design an architecturally proportionate room, eliminating guesswork. Go with a complete Style or mix and match to create your own signature look.

Colonial Revival

### HISTORICAL BACKGROUND 1725-1820

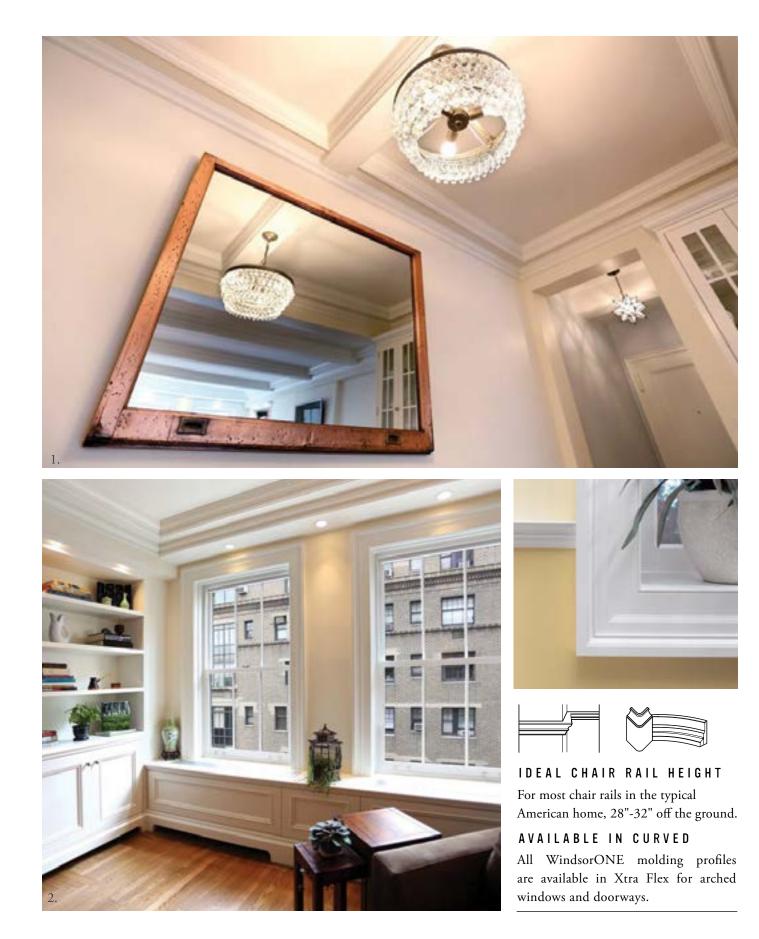

The Classical Colonial Style captures the feel of the 18th century. Designed after the historic William Gibbes House in Charleston, South Carolina, where the rooms and walls are symmetrical, balanced and perfectly proportionate.

## **TR** TRADITIONAL CLASSICAL COLONIAL

The two-piece casing adds detail & depth. A monumental four-piece built up cornice, chair rail, casing and base are all proportioned so that they can complement each other.

SCALE

For more information on our Classical Colonial collection, specifications & installation tips, please visit WindsorONE.com 37

### HISTORICAL BACKGROUND 1820-1840

Based on the ellipse rather than the circle, this style was founded on the principles of classic Greek architecture. This style flourished as American builders, fueled by patriotism, moved away from more traditional English styles.

## **TR** TRADITIONAL GREEK REVIVAL

available in Xtra Flex for arched windows and doorways.

#### VARIATIONS ON GREEK REVIVAL

1-2. Custom plinth block 3. Bullnose along the edge of casing. 4. Scaled up casing option

#### GREEK REVIVAL

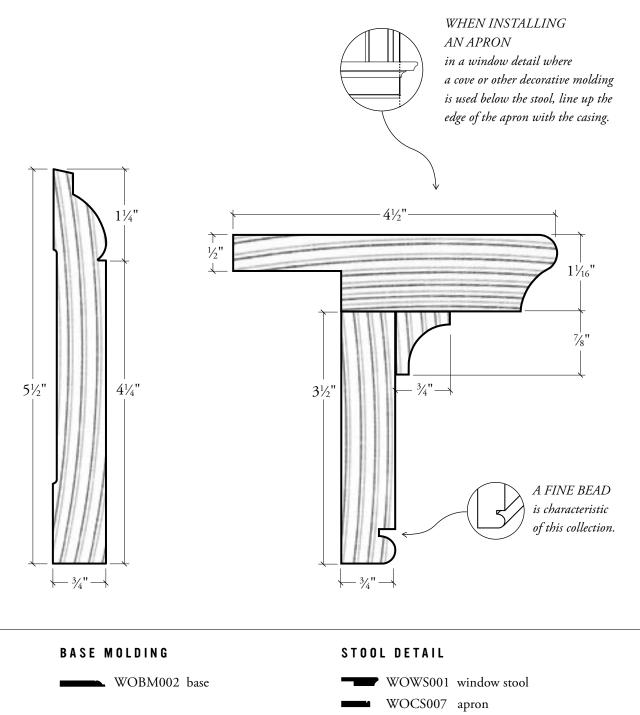

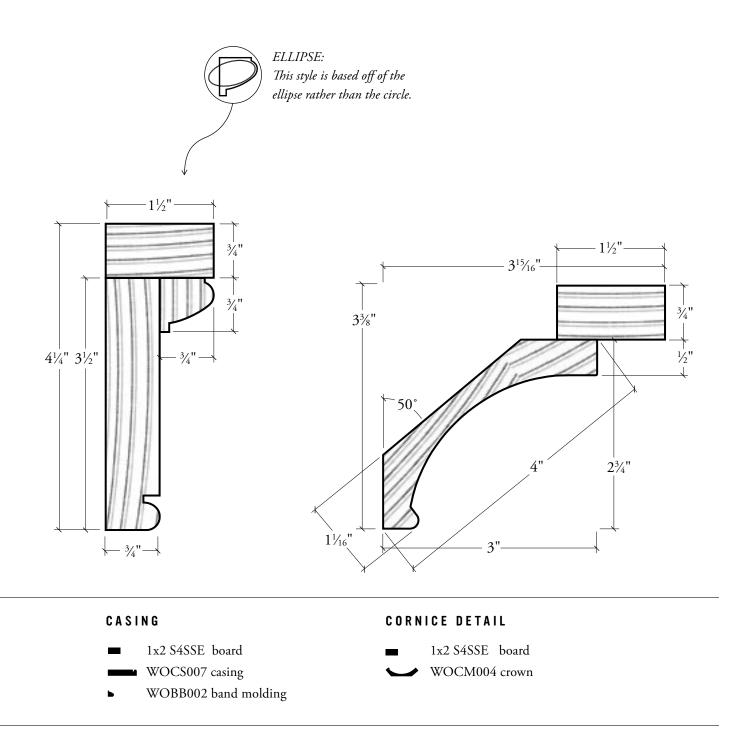

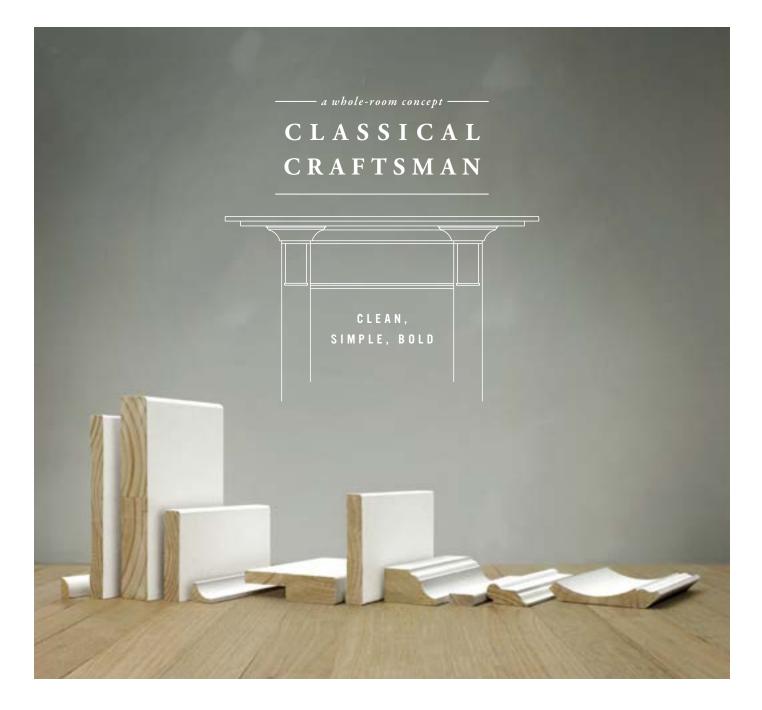

The Greek Revival Style is characterized by the elliptical radius found in the Golden Rectangle's nautilus shell.

#### SCALE

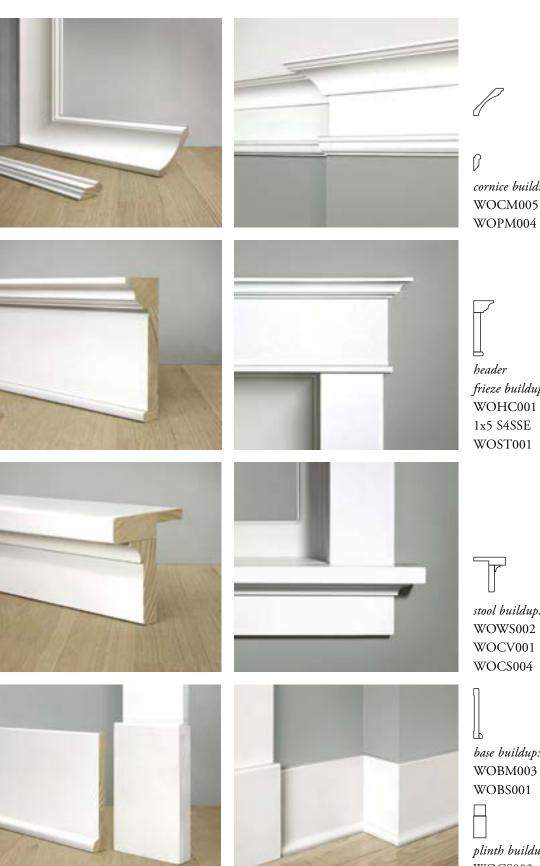

## HISTORICAL BACKGROUND 1900-1930

The Classical Craftsman Style is inspired by the Arts and Crafts, Bungalow and Prairie movements. These movements rejected Victorian era excesses and embraced the desire to emphasize "manmade" over "machine-made" materials.

## BEADED CASING, WAINSCOT CAPS, FEDERAL PANEL MOLD

SCALE

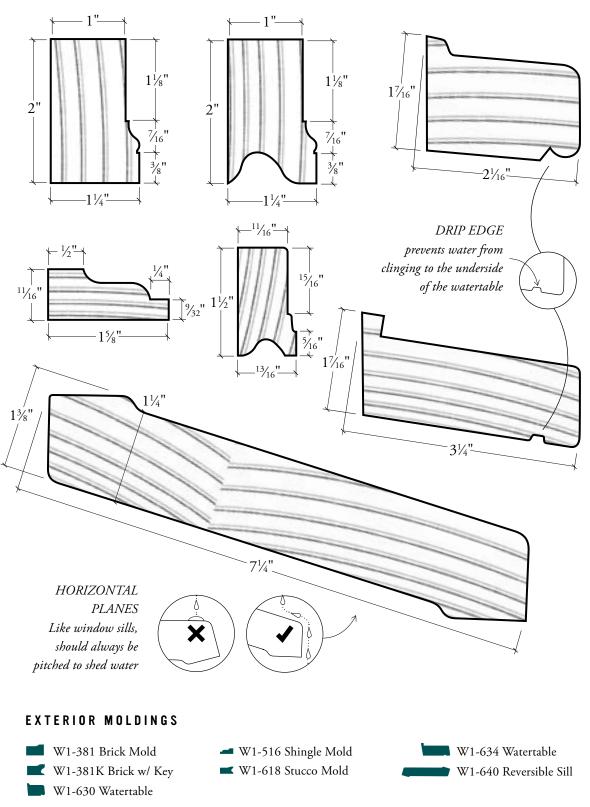

### **PROPORTION & SCALE USED SINCE ANCIENT TIMES:**

The moldings we use on our homes today are derived from the shapes and proportions established by the Greeks and Romans. The chart above show us the proper placement of moldings in a room is determined by the proportions in the Classical system. The chair rail or wainscot cap in a room is established by the height of the pedestal. The same with the crown and picture mold. Even the size of the casing is given by the classical orders.

EXTERIOR MOLDINGS

SCALE

# TRU-CORE® TECHNOLOGY

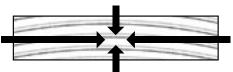

used in

PROTECTED TRIM BOARDS

## PENETRATES TO THE CORE

## PRESERVATIVES DELIVERED DEEP

**INTO THE CORE** The TRU-CORE<sup>\*</sup> penetration technology takes five EPA registered decay and insect control preservatives and transports them to the core of the board, binding them to the wood fibers.

CARRIER, PENETRATION & FIXATION CHEMISTRY Five Decay and Termite Preservatives (Including Formosan)

## PROTECTS Heartwood

TRU-CORE<sup>®</sup> PENETRATES HEARTWOOD, OTHER TREATMENTS DO NOT FULLY PENETRATE ALL HEARTWOOD TRU-CORE\* fully penetrates heartwood (unlike other outdated technologies). Heartwood typically makes up 30% of a board.

## 30 YEAR WARRANTY

Against rot, decay, formosan termites (& other wood eating insects). No end retreatment required in the field to cut ends & nail holes. (Priming of cuts & nail holes still required.)

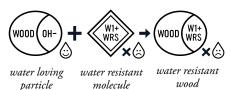

## SAFETY/GOLD IAQ RATING

## MEETS U.S. STANDARDS OF SAFETY

WindsorONE TRU-CORE<sup>®</sup> is applied in the USA. Other treatments are typically done overseas (New Zealand, Chile, China) due to the expense of operations & handling requirements needed to meet USA Environmental, Air Quality, Health & Safety standards. **SAFE FOR INTERIOR USE** Gold IAQ rating, suitable for interior use

## WEATHER RESISTANT

WindsorONE Protected is resistant to many effects of weathering thanks to the new Weather Resistant System (WRS) additive.

WRS provides you with a board that reduces the potential for cracking, swelling, and other weathering damage. Furthermore, the WRS improves the coating performance and breathability of your trim.

## HIGHER STANDARDS MEETS/EXCEEDS STANDARDS:

- WindsorONE TRU-CORE® Protected program uses 5 EPA registered and globally accepted carbon based preservatives for interior and exterior use approved by the manufacturer for use in the AWPA (American Wood Protection Association) wood use Categories UC2 and UC3A.
- TRU-CORE<sup>®</sup> Process treatments are used to meet numerous standards and specifications in New Zealand, Australia, U.S., UK, Pacific Islands, Hawaii, Japan, South Africa and many other areas of the world.
- TRU-CORE<sup>®</sup> Process treatments are approved by the Window and Door Manufacturer's Association of North America (WDMA) to be compliant with the WDMA IS-4 Standard.
- TRU-CORE<sup>®</sup> Process treatments are widely used to protect railway ties, decking, fencing, I-joists, plywood, framing, windows, doors, siding, trim, and many other wood products.

# **10** THINGS *about*

PROTECTED

## PROTECTED TO THE CORE; FULL PENETRATION

Because unlike the other guys, we're assuming you'll actually want to cut the material at some point.

## PROTECTED AGAINST ROT, INSECTS & MOLD

Does not protect against your motherin-law, hangovers, airport security, etc.

## DURABLE FOR EXTERIOR & SAFE FOR INTERIOR

Gold Indoor Air Quality Rating, low VOC's & California Hippie Approved.

## MINIMIZES NATURAL TENDENCY TO DISTORT

Unlike the explanation your 16 year old told you about how the family car ended up in the pond out on Route 1.

Water is for drinking, not trim boards.

## PROTECTION NOT DIMINISHED

By shaping, planing, sanding, fastening or molding (actual use does not void the warranty).

## NO KNOTS; YOUR BOARDS Are Always Clear

Imagine that, you can actually use every foot you pay for.

## THE CUT SURFACES ONLY NEED PRIMING

No need to also apply special protection (we took care of that for you).

## BACKED BY A 30 YEAR LIMITED\* WARRANTY

\*The "limitation" is you have to install it correctly (for an example, see note on priming cuts).

BUILD AMERICA: MANUFACTURED IN THE U.S.A.

Because everything else you bought was made in China.
